

Aquatec Maxcon are exhibiting at **Ozwater 2014**, which is being held at the Brisbane Convention & Exhibition Centre from 29 April – 1 May 2014. We will be located at stand No. **2N20**.

We welcome any discussion of your water and wastewater treatment needs.

Experts in their field visiting our stand include:

Matthew Johnson, BioAir Solutions USA - Odour Control Technologies

Ronald Niermans and Charlotte Spliethoff of Royal HaskoningDHV - Nereda® - Aerobic Granular Technology

Presenters at Ozwater'14 are:

Tuesday 29th April 2014:

Anthony Davey, Aquatec Maxcon Pty Ltd "How Advance Water Technologies can Reduce Water Quality Risk"

Alistair MacNab, Trojan Technologies, Canada "Effectiveness and Impact of UV Oxidation for T&O Treatment in Drinking Water"

Wednesday 30th April 2014:

Matthew Johnson, BioAir Solutions, USA "Use of Biotrickling Filters for Total Odour Control at Municipal Wastewater Treatment Plants"

Poster Presentation by:

Max Garavaglia, Aquatec Maxcon Pty Ltd "Construction and Operation of Hybrid BNR Plants in Regional and Remote Australian Locations"

We look forward to seeing you at Ozwater'14.
